Lili Bosse, Mayor

June 22, 2022

The Honorable Buffy Wicks, Chair
Assembly Housing and Community Development Committee
1020 N Street, Room 156
Sacramento, CA 95814

Re: SB 6 (Caballero) Local Planning: Housing: Commercial Zones
City of Beverly Hills - **OPPOSE**

Dear Chair Wicks,

The City of Beverly Hills stands in respectful **OPPOSITION** to **SB 6**, a measure to authorize residential development on existing lots currently zoned for commercial office and retail.

While the idea of repurposing underperforming commercial sites may have merit as a strategy to increase housing production, **SB 6** could result in a number of inappropriately located and sized housing development across the state.

Local jurisdictions invest an incredibly large amount of time and resources to develop their housing elements. This process includes deep analysis and large amounts of time gathering community input. Through this process, local jurisdictions take time to analyze and identify the most suitable locations for housing to meet their Regional Housing Needs Allocation (RHNA) targets. This bill could lead to development on sites that would follow out-of-character zoning standards.

SB 6 would have the effect of overriding these carefully crafted, locally informed plans, leaving local officials accountable to local impacts from a planning decision that would be out of their hands. Long after Legislators have moved on to different topics, local officials will be living with the consequences of this state override of local planning and zoning.

CITY OF BEVERLY HILLS

455 NORTH REXFORD DRIVE • BEVERLY HILLS, CALIFORNIA 90210

This one-size fits all approach fails to account for the wide variation in community characteristics across local jurisdictions. Roughly 9 percent of the land in the City of Beverly Hills is zoned commercial, but these areas of the City generate 70 percent of the City's revenue. This override of local planning and zoning could diminish revenue to the City of Beverly Hills and lower the ability of the City to pay for vital public services such as police and fire.

Moreover, **SB 6** does not provide any additional resources or funding to cities to offset this loss in revenue nor does it to provide funding to improve the existing infrastructure to support a different demand on services. **SB 6** does not take into account how cities will fund the additional city services that would be needed to support these new developments and the resulting increased populations.

Finally, many jurisdictions create a graduated barrier from a busy commercial area to residential areas through adoption of a general plan. This bill would allow residential housing to be placed in a busy commercial area that could adversely affect the health of residents in the area. Many studies show direct, negative health impacts on people who live adjacent to heavily used commercial areas.

For these reasons, the City of Beverly Hills must respectfully **OPPOSE SB 6**.

Sincerely,

Lili Bosse,
Mayor, City of Beverly Hills
